

**EVA-2151D**  
**Dual 15in**  
**Subwoofer**  
**Line Array Module**

## Key Features

- **Designed to rig with EVA full range modules**
- **Hidden suspension hardware (included)**  
is aesthetically pleasing
- **Two (2) finishes available—standard and PI**
- **100dB sensitivity**
- **1000W continuous power capacity (4,000W peak)**
- **130/136dB maximum SPL (continuous/peak)**
- **EVADA (EVA Design Assistant) software tool available**

## General Description

The Electro-Voice EVA-2151D is a high-power, dual 15in, front loaded subwoofer module for use with EVA full-range line-array modules. It is designed to be arrayed at the top of an EVA full-range array using the EVA-EG2 grid (sold separately). Up to two (2) EVA-2151D subwoofers and five (5) EVA full range modules may be flown in this configuration from a single hang point. Standalone subwoofer arrays of up to four (4) EVA-2151D modules may also be flown from a single hang point using the EVA-EG2 grid. Massive standalone subwoofer arrays of up to eight (8) EVA-2151D modules are possible using a minimum of two (2) hang points if the array is kept perpendicular to the ground. For complete rigging information, refer to the EVA User Manual available at [www.electrovoice.com](http://www.electrovoice.com).

The EVA-2151D has been designed exclusively for fixed installation applications. The dual DVX-3159A 15in woofers are specially designed for subwoofer duty to provide reliable low-frequency performance with solid impact and low distortion at high sound pressure levels. The enclosure is constructed of 18mm 13-ply birch plywood reinforced with internal steel rigging top to bottom and coated with EVCoat for durability and professional appearance. PI versions are available for indirect outdoor exposure. PI versions include the CDG dual gland nut input panel cover and stainless steel three-layer grille. The innovative input panel provides a choice of Phoenix/EuroBlock connectors, optional CDNL4 cover plate with dual NL4-type connectors, or the CSG single gland nut plate for use with cable. All external hardware is stainless steel. Intermodule tie plates are included with each EVA-2151D to facilitate rigging to either EVA full range modules or another EVA-2151D suspended underneath. Enclosure side panel covers conceal all suspension hardware and provide a smooth, monolithic appearance. For array design, refer to the EVA Design Assistant (EVADA) software, available at [www.electrovoice.com](http://www.electrovoice.com).

## Technical Specifications

<b>Frequency Response<sup>1</sup> (-3dB)</b>	38Hz to 200Hz	
<b>Frequency Range<sup>1</sup> (-10dB)</b>	28Hz to 200Hz	
<b>Rec. High-Pass Frequency</b>	32Hz, 24dB per Octave Butterworth	
<b>Axial Sensitivity<sup>2</sup></b>	100dB (1W/1m)	
<b>Maximum Calculated SPL<sup>1</sup></b>	130dB/136dB (Continuous/Peak)	
<b>Power Handling<sup>3</sup></b>	1,000W/4,000W (Continuous/Peak)	
<b>Crossover Frequency</b>	80Hz to 125Hz, 100Hz Typical	
<b>LF Transducers</b>	2 x DVX3159A, 15in (381mm) Driver	
<b>Impedance</b>	4 Ohms (nominal) 2.8 Ohms (minimum)	
<b>Connector</b>	Dual 4-pin, 10AWG Phoenix/ EuroBlock Screw-Terminals	PI Versions: CDG Gland Nut Input Panel Cover Included
<b>Enclosure</b>	13-ply Weather Resistant Birch with EVCoat	
<b>Grille</b>	16GA Powder-Coated Galvanneal	PI Versions: Stainless Steel with Hydrophobic Cloth
<b>Environmental</b>	IEC 60529 IP55 for PI	
<b>Suspension</b>	EVA-EG2 Grid (sold separately) EVA-GXB Extra Spreader Bar (sold separately)	
<b>Dimensions (H x W x D)</b>	30.5in x 23.418in x 31.2in (930.4mm x 597mm x 792.5mm)	
<b>Net Weight</b>	178lb (80.8g)	
<b>Shipping Weight</b>	193lb (87.6kg)	

1. Half-space measurement.

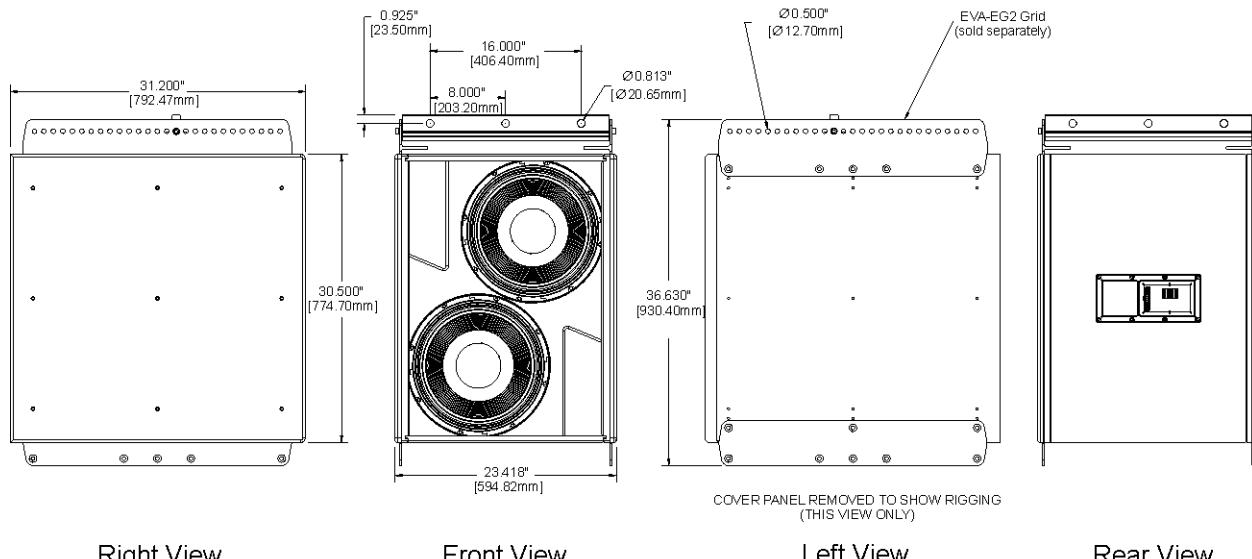

2. Arithmetic average, 55–110Hz, half-space measurement.

3. AES-1984, tested for eight (8) hours.

### EVA-2151D Part Numbers

F01U131145	EVA-2151D-BLK, Black Finish
F01U131146	EVA-2151D-WHT, White Finish
F01U131147	EVA-2151D-PIB, Black, Weather Resistant
F01U131148	EVA-2151D-PIW, White, Weather Resistant

### Performance Match

F01U1311xx	EVA-2082S/906, 90° x 6° Coverage
F01U13112x	EVA-2082S/920, 90° x 20° Coverage
F01U13113x	EVA-2082S/126, 120° x 6° Coverage
F01U1311xx	EVA-2082S/1220, 120° x 20° Coverage
F01U076843	CPS2.9, 120V Power Amplifier, 2 x 900W
F01U076844	CPS2.12, 120V Power Amplifier, 2 x 1,200W
F01U101295	CPS4.10, 120V Power Amplifier, 4 x 1,000W

### ! CAUTION !

This EVA Loudspeaker should be suspended overhead only in accordance with the procedures and limitations specified in the EVA User Manual and possible manual update notices. This system should be suspended with certified rigging hardware by an authorized rigging professional and in compliance with local, state, and federal overhead suspension ordinances.

### Accessories

F01U169136	EVA-EG2-BLK, EVA Extended Grid (Black)
F01U169137	EVA-EG2-WHT, EVA Extended Grid (White)
F01U131151	EVA-GXB-BLK, EVA Grid Extra Spreader Bar (Black)
F01U131152	EVA-GXB-WHT, EVA Grid Extra Spreader Bar (White)
F01U131158	CDNL4, Cover Plate, Dual NL4
F01U131159	CSG, Cover Plate, Single Gland Nut
F01U131160	CDG, Cover Plate, Dual Gland Nut
